

1 Print out the book in color or black & white.

2 Take the sheet with the back and front covers and fold it in half so the images are on the outside.

3 One at a time, fold the rest of the pages in half. Stack them on top of each other so the odd pages are facing up.

4 Place the interior pages inside the folded sheet with the back and front covers.

5 Staple the side of the book to the left of the dotted line.

6 Happy reading!
